

December 2016

Dear Friend,

Thanks to the consideration of the person who sent you this gift certificate, The Lifehouse is pleased to offer you the opportunity to receive a complimentary initial health assessment.

This is a wonderful first step to help you heal any nagging aches or pain natural, increase your mind body connection, and develop a greater sense of wellbeing. This evaluation will allow you to see how well your body is coping with the physical, chemical and mental/emotional stresses of life. Our process includes a full health history, postural assessment, as well as a physical and neurological exam.

We make this offer available during the holiday season as a way to extend the gift of health to the friends and families of our practice members.

Please note that this opportunity expires at the end of January, a time when many people choose to take on improving their health. If you are ready to nurture your body and mind by releasing some of the holiday and lifelong stresses, helping you tap into more energy and express greater health and vitality, simply call our office at (250) 740 0333 and we will gladly reserve your first visit at your convenience.

From all of us here at The Lifehouse, all the best to you and yours in this joyous holiday season!

Sending Peace, Health & Wellbeing,

Dr. Norman & Heather Lynne Detillieux
